

# Keep Growing

Camp Cope

Still can't decide whether I wanna  
Waste money or waste my time  
I'll probably stay inside  
Never really been the social type  
And I'll still try to stand tall  
No, that's not me in the back row no more  
So I'm not gonna walk like I'm in your shadow anymore

I'll keep growing my hair out  
I never wanna do anything, even when you're around  
I'll keep growing my hair out  
It's not for you, oh no

And tonight, I'll probably eat by myself  
I'll probably do nothing else  
Sit like a book upon a shelf

Maybe I haven't learned anything  
Maybe I haven't learned anything  
Maybe I'm destined to stay  
Maybe I'm destined to never change

But I'll keep growing my hair out  
I never wanna do anything, even when you're around  
I'll keep growing my hair out  
It's not for you  
Oh no, it's not for you  
No, it's not for you

I never wanna do anything  
Maybe I haven't learned anything  
I loved you more than anything  
I never wanna do anything  
Maybe I haven't learned anything  
I loved you more than anything  
I never wanna do anything  
Maybe I haven't learned anything

But I'll keep growing my hair out  
I never wanna do anything, even when you're around  
I'll keep growing my hair out  
It's not for you  
Oh no, it's not for you  
No, it's not for you
