

Say The Line

Camp Cope

Took a lot to walk away
Layin' awake, sleepin' sideways
But I'm sleepin' on my back now
And God, I hope it's good for my spine (And God, I hope)

I remember the way I loved but I lost it
Staring back at me from the dark keeping me honest

I wanna kiss you in my own way
If you want me to, babe
Uh huh
Say the line

Now I wanna live on a mountain
I wanna play the tambourine
The only sound that I wanna hear at night is the rain through the ceiling

When you left, the birds were singing (If you want to keep me in mind)
Probably wasn't a song for me (If you want to just say the line)
I remember the way I loved but I lost it (If you want to keep me in mind)
Staring back at me from the dark keeping me honest (If you want to just say the line)

I wanna kiss you in my own way
If you want me to, babe
Uh huh
Say the line

Yeah, I do (If you want to keep me in mind)
(If you want to, if you want to)
I do (If you want to just say the line)
(If you want to, if you want to)

I remember the way I loved but I lost it
And I never felt it again
I wanna kiss you in my own way (What does that even mean?)
If you want me to, babe
Uh huh
Say the line

I-I-I do (If you want to keep me in mind)
(If you want to, if you want to)
I do (If you want to just say the line)
(If you want to, if you want to)
I do (If you want to keep me in mind)
(If you want to, if you want to)
I do (If you want to just say the line)
(If you want to, if you want to)
Yeah, yeah, yeah
