

# Altamonte Explode

## Can't Swim

The dressers and counters we fucked on for hours  
You held me so close I felt high  
Shaken and fearful  
A match, with no equal  
I hate to admit you were right

The medicine wore off

And then I just explode  
(Got it running all through my veins)  
And I just want to know  
(Can I burn it all up in flames?)  
Got me seeing red  
I explode  
(Got it running all through my veins)  
And I just want to know  
(Can I burn it all up in flames?)  
Got me seeing red

I don't need it  
And I don't want nothing to do with you anymore

The lying and cheating that felt so relieving  
The things that we do to stay numb  
The meaningless sex  
Try and cover your steps up  
The things that we do when we're young

The medicine wore off

And then I just explode  
(Got it running all through my veins)  
And I just want to know  
(Can I burn it all up in flames?)  
Got me seeing red  
I explode  
(Got it running all through my veins)  
And I just want to know  
(Can I burn it all up in flames?)  
Got me seeing red

I don't need it  
And I don't want nothing to do with you anymore

Torn and tattered, left me in such a mess  
Felt so blinded by the lies that you weave  
I find it hard to believe your intentions were true  
When it's so obvious that you wanted to  
Hurt me  
Hurt me

And I don't want nothing to do with you anymore

This is hopeless  
This is hopeless

And then I just explode

(Got it running all through my veins)  
And I just want to know  
(Can I burn it all up in flames?)  
And then I just explode  
And I just want to know

This is hopeless  
This is hopeless
