

Casey

Can't Swim

(See if I'm gonna do it again)

Through it all you've been the constant in my life
Rearrange all the memories in my brain
So I can feel I didn't lose you years ago

Always been a drug, couldn't give you up
Always gave my all, wasn't good enough
It seems you moved along, I've been taking my time with that
I don't think it's right
I was sitting home, wasn't doing much
Yea, I could feel alone with the two of us
You seemed to move along, I'll be taking my time back
'Cause you're already gone
And you're already gone

I was wrong but Casey knew it all along
And it's obscene, you change your face like Halloween
To fit the seasons, all the reasons knocked the wind right out
of me

Always been a drug, couldn't give you up
Always gave my all, wasn't good enough
It seems you moved along, I've been taking my time with that
I don't think it's right
I was sitting home, wasn't doing much
Yea, I could feel alone with the two of us
You seemed to move along, I'll be taking my time back
'Cause you're already gone
And you're already gone

Progress is poison, it weakens us all
The higher you reach towards the sky, the harder you'll fall
But that's alright with me, see I'm a simple guy
Keep the illusion that I'm getting by just fine
