

ELIMINATE

Can't Swim

How far have we gone
Backwards what year do we live in
It's hard to believe the past has shown us all nothing

Eliminate, eliminate

Another kid gone
How loud do their cries have to become
To be heard in a crowd of tone deaf people wielding guns

Eliminate, eliminate

So raise your fist in the sky
Eliminate, eliminate
And raise your first hold 'em high
Eliminate, eliminate
They got the power we've got the numbers
We've called your bluff
Hide at the top we'll break through from under
We've called your bluff

A nervous breakdown
Why count the tragedies a year
When you're blaming the young?
Until it's your son
Tell me now who lives in fear?

Eliminate, eliminate

So raise your fist in the sky
Eliminate, eliminate
And raise your first hold 'em high
Eliminate, eliminate
They got the power we've got the numbers
We've called your bluff
Hide at the top we'll break through from under
We've called your bluff

So listen closely
We won't let history repeat itself
Listen to me
You're not the only one in need of help

You're not the only one
You're not the only one
You're not the only

Raise your fist in the sky
Eliminate, eliminate
And raise your first hold 'em high
Eliminate, eliminate
They got the power we've got the numbers
Your lucks run out
Hide at the top we'll break through from under
Can't stop us now

Eliminate, eliminate

Eliminate, eliminate
