

## No Backbone

## Can't Swim

I wonder if you ever think of me  
Do you think of someone else instead?  
I showed you that one trick to make you scream  
Do you remember?

You misdirect the notions that I said  
As you move in so much closer  
I have no backbone when were in bed  
Do you remember?

Can we just go, will you please agree?  
Lover won't you just grab a hold of me, I said  
Once before but I still believe  
Nobody gets me like you do

You always did exactly what I said  
As you put your hands over your mouth  
So the neighbors wouldn't complain again  
Do you remember?

Can we just go, will you please agree?  
Lover won't you just grab a hold of me, I said  
Once before but I still believe  
Nobody gets me like you do

And now you're gone  
I never did quit  
It took me long  
To comprehend it  
I'm feeling low  
It's not the weather  
I finally know  
It's for the better  
It's for the better  
I still believe, I still believe

Can we just go, will you please agree?  
Lover won't you just grab a hold of me, I said  
Once before but I still believe  
I still believe, I still believe

Can we just go, will you please agree?  
Lover won't you just grab a hold of me, I said (I still believe, I still believe)  
Once before but I still believe  
Nobody gets me like you do
