

Hunters and Collectors

Can

Hunters and collectors all come out at night,
Hunters and collectors never see the light,
Hunters and collectors all come out at night,
Hunters and collectors never see the light.

Hey, midnight man, the watcher,
It will all be up before the sun is up
And it will all be down before the moon goes down.

And they will shoot, don't crush,
All I can, don't crush.

Hunters and collectors all come out at night,
Hunters and collectors never see the light,
Hunters and collectors all come out at night,
Hunters and collectors never see the light.

Thirty leather kids on the gang ban trail,
Get your big brown man with the snakes in bed.
Dirty bother me now, it soaks into a cup,
She says "If you don't start at all you never have to stop."

The watcher.

Hunters and collectors,
Hunters and collectors,
Hunters and collectors,
Hunters and collectors.

Hunters and collectors,
Hunters and collectors, the watcher,
Hunters and collectors,
Hunters and collectors, from the darkness.

Hunters and collectors all come out at night,
Hunters and collectors never see the light,
Hunters and collectors all come out at night,
Hunters and collectors never see the light.
Hunters and collectors all come out at night,
Hunters and collectors never see the light,
Hunters and collectors all come out at night,
Hunters and collectors never see the light.

Ooh, midnight man.
