

Chickahominy

Canaan Smith

You know all my secrets
You've heard all my prayers
You still hold the can I throwed after I drank my first beer
You saw all them kisses
Heard a couple lies I told
And you're the one I ran to after she left my heart cold
And when it came time for leaving
All I was thinking was

Roll roll Chickahominy
Sing sing sing your song to me
Rock me on your riverbank
Hold me while I dream
Run run run forever
One day we'll get back together
My one and only Chickahominy

I rode this ole guitar
Down every winding road
It hung on my chest and did it's best to keep me far from home
Found money, I found late nights
Even love a time or two
But it ain't never made me feel like when I get close to you

Roll roll Chickahominy
Sing sing sing your song to me
Rock me on your riverbank
Hold me while I dream
Run run run forever
One day we'll get back together
My one and only Chickahominy

Through the walls of all these hotel rooms and places that I sleep
Your spirit's like a siren song; haunting, calling me
Roll roll Chickahominy
Sing sing sing your song to me
Rock me on your riverbank
Hold me while I dream
Run run run forever
One day we'll get back together
My one and only Chickahominy
My one and only Chickahominy
Chickahominy
