

In Time with You

Canaan Smith

You'da thought that I's the one that hung the neon moon
You'da seen it if you spent a single night in my boots
I was an old record spinnin'
Around what my whole world was missin' all along
'Til you put the words in the song

And we rock, and we roll
Through the highs, and the lows
Swaying and swingin'
Like two love birds singin'
Sounds so familiar
But somehow brand new
Dancin' through life
In time with you

Crazy ain't it baby how the thing worked out like this
All the sudden done with runnin,' hell I guess I just quit
Hit the breaks on the heartache
Held back the horses
The first time I kissed you
Hit like a chorus

And we rock, and we roll
Through the highs, and the lows
Swaying and swingin'
Like two love birds singin'
Sounds so familiar
But somehow brand new
Dancin' through life
In time with you
Crazy ain't it baby how

Somewhere there's an old record spinnin'
And a fool who don't know what he's missin'
Won't be long
She'll put the words in the song

And we rock, and we roll
Through the highs, and the lows
Swaying and swingin'
Like two love birds singin'
Sounds so familiar
But somehow brand new
Dancin' through life
In time with you
