

# Ragin' Hard

Cancer Bats

Burnin'  
The loaded gun  
We'll drop these bullets on your faces and graves

Turnin'  
Face from the sun  
We're slowly learnin' that the light we save is out

Burnin'  
Minutes and days  
Before we give in, 'till our bodies are done

Ragin'  
No one's awake  
But it's still time [?] if you want at all

I'll wreck these complex contracts  
Callin' us  
Tear up this shortbread lap dance  
Ragin' hard

Why waste these times for gettin' down  
Why waste it all?  
Why waste these times for gettin' down  
Why waste it all?  
Why waste these times for gettin' down  
Why waste it all?  
Why waste these times for gettin' down  
Why waste it all?

Callin'  
Everyone  
To take my wantin' and just give it away

Ballin'  
Matrix sons (?)  
Don't pull the ribbon 'cause it's all a disease (?)

I'll wreck these complex contracts  
Callin' us  
Tear up this shortbread lap dance  
Ragin' hard

Yeah  
Yeah  
Yeah  
It's our time

Yeah  
Yeah  
Yeah  
It's our time

These bats will wreck your city  
These bats will crush your town  
These bats will wreck your city  
These bats will crush your town

These bats will  
These bats will  
These bats will break your heart

These bats will  
These bats will  
These bats will f\*ck you up
