

## Sleep This Away

Cancer Bats

Cold as I am, I'm just doin' my best  
The best that I can, I'm just needing some rest  
The rest that I know, I've needed much too much

Can you help me  
Pulling me down  
Save my soul  
Pulling me down  
It drags me down  
I can't take this hurt

Oh and I'm so tired  
Oh and I'm so tired

Suffered this far, might as well just suffer some more  
The more that I take, you know the further I'll fall  
Eyes to the sky, I've got my eyes to the sky  
One last day, so I can end with the night

Can you help me  
Pulling me down  
Save my soul  
Pulling me down (down, down)  
It's draggin' me down (down, down)  
I can't take this hurt

Oh and I'm so tired  
Oh and I'm so tired

Oh and I'm so tired, one of these days  
Oh and I'm so tired, sleep this away  
One of these days, sleep this away  
One of these days, sleep this away  
I'll sleep, I'll (sleep this away) x2
