Risen from below, your life's last command  
Struggling with my thoughts  
Mourning slowly down  
Destiny to find, pasture of delights  
Navigated course  
Body and mind divorce

Is this the end?  
Eager to find  
The secret of taste, eternal life  
At death's door  
Life's dismay  
Poisoned forever, decay

See the void of light, tempts me with desire  
My soul reclines  
Frantic and weak  
Images of the past, elude my mind  
Emotions now distort  
Sins that I have shed

Is this the end?  
Eager to find  
The secret of taste, eternal life  
At death's door  
Life's dismay  
Poisoned forever, decay

Shattered in life  
You can't see it anymore  
Salvation is near  
You walk right through the door

Is this the end?  
Eager to find  
The secret of taste, eternal life  
At death's door  
Life's dismay  
Poisoned forever, deca
