

## Alter Of Sacrifice

Cancerslug

Dark star is calling  
Black moon is filling up the endless sky  
And death is coming for you  
Black robes I can hear the little babies cry  
On the alter of sacrifice  
Cry on the alter of sacrifice

The drums beat warnings  
You feel your end in sight  
And death is coming for you  
Black robes I can hear the little babies cry  
On the alter of sacrifice  
Cry on the alter of sacrifice

Don't let it fade away,  
Don't let it fade away,yeah  
Don't let it fade away,yeah  
Don't let it fade away...
