

## Bloodseed

Cancerslug

You hate your mortal race, your kind  
Inside, you hate the darkness of your mind  
Oh life  
You want to open up with something you can sacrifice  
You hate your mortal race your kind  
You want to see your body burned  
Bloodseed  
You want to see it ripped and torn  
Dark need  
You want to open up with something you can tear apart  
You want to see your body burned
