

Little bitch
You are the one that I've been dreaming of
Talkin' all that shit
But you know your ass can't back it up
If we find you then you know we're gonna spill some blood
Look into my eyes and realize how bad you f*cked up

Little bitch
You say you're sorry yeah, we know you are
And you know once I get started I will go way too far
All that bullshit you talked and now your eyes are so full of tears
The sound of breaking bones is music to my ears

Do I
Look like I give a f*ck
You're shit outta luck
If you're f*ckin' with us

Little bitty bitch, do I
Look like I give a f*ck
You're shit outta luck
If you're f*ckin' with us
(Woah-Woah)

I'll be the one who will kick you when you're down
And every devil I know
Will lay a curse upon your bones
