Dick Solid

Cancerslug

They say these times are a-changin, but i dont know when
The same ol' bullshits coming back again
And everybody just spreads like leaves in the wind
Right when the motherfuckin trouble starts

Comin out, comin up, comin over the hill
You all say you wanna help but you never will
And just as soon as youre gone, you know ill be here still
Right when the motherfuckin trouble starts

Im starin down death with my dick my hand
Solid as a rock, i dont give a damn
Im here to fuck or fight my way out of a jam
And i will be the last man standin

Kill the judges and the cops and the president
Burn the schools and the churches we will not repent
Kill your parents and send me all your money and then
Kill yourself ill be the last man standing

Fucking tired of religion and politics
Fuckin cattle you deserve just what you get
Fuckin infant still suckin on your mothers tit
Right when the motherfuckin trouble starts

You all love to play the victim oh so much
Youre getting played, and now you blow each other up
Youre so concerned with me there aint no time for us
And now, the motherfuckin trouble starts
Im starin down death with my dick my hand
Solid as a rock, i dont give a damn
Ill fuck or fight my way out of a jam
And i will be the last man standin
Kill the judges and the cops and the president
Burn the schools and the churches we will not repent
Kill your parents and send me all your money and then
Kill yourself ill be the last man standing

Suck my dick
Suck my dick
Suck my dick
Suck my dick
