

# Fate

Cancerslug

I won't lose sleep on the fate of an enemy  
Don't let me hear how you've done me no wrong  
Make no mistake  
Know your place  
You are my enemy  
The cold draws near though now you walk in the  
sun

I am who I am  
Total annihilation  
You who forced my hand  
Anger of the gods  
I am who I am  
Complete extermination  
You who forced my hand  
Life against the odds

Look in my eyes  
See the face of your enemy  
Whisper my name  
I'll be the promise of blood  
Fate brought us here to this place  
Made us enemies

Complete collapse  
Your extinction draws near

I am who I am  
Complete eradication  
You who forced my hand  
Cold grip of fear

I am who I am  
Utter demolition  
You who forced my hand  
Only now see clear

Fate  
Fate  
Fate of an enemy

Fate  
Fate  
Anger of the gods

Fate  
Fate  
Fate of an enemy

Fate  
Fate  
Life against the odds

I won't lose sleep on the fate of an enemy  
Only now do you understand  
Holding my hand where only the gods walk
