

# Generation Behind

Cancerslug

Sitting round with time to kill  
If we don't do it then no one will  
Our eyes are cold, our thoughts are old  
Fifteen minutes till we lose control  
So we go out in the world again  
Disappointment is our closest friend  
A generation behind  
We're going nowhere and that's just fine

Maybe tonight's the night we die  
Take a look to the endless sky  
And let your fears all slip away  
What good are they anyway  
Baby you know it's only you and me  
And as far as I'm concerned that's all I need  
A generation behind  
We're going nowhere and that's just fine

Your eyes are filled with wrecked innocence  
With every kiss I taste blood on your lips  
I feel the pain you try to hide  
Another day of a wasted life  
And we don't care what the fuck they say  
Because we make our own reality  
A generation behind  
We're going nowhere and that's just fine

Maybe tonight's the night we die  
Take a look to the endless sky  
And let your fears all slip away  
What good are they anyway  
Baby you know it's only you and me  
And as far as I'm concerned that's all I need  
A generation behind  
We're going nowhere and that's just fine

The angel of death rests in our hands  
This wasted city is our promised land  
And I know we'll be alright  
It doesn't really matter if we live or die  
What keeps us going is this fire inside  
And I know we're gonna burn tonight
