

# Into the Burning Sky

Cancerslug

We are your future  
And your future is black  
(No future!)

We are a death-squad  
On a final attack  
([?])

The cult has grown  
And now there is no turning back  
(No future!)

So watch our death god  
Shake her sweet demon ass

Fly into the burning sky  
Our death god is rising  
Fly into the burning sky  
Our death god is rising

The fire burning  
We're already in hell  
(No future!)

After tonight you're gonna  
Be there as well  
([?])

Nothing can save you  
Even your god has failed  
(No future!)

And you will watch

Your children die as they kneel

Fly into the burning eye  
Our death god is rising  
Fly into the burning eye  
Our death god is rising

(Fly)  
(Fly)

We are your future  
And your future is black  
(No future!)

We are a death-squad  
On a final attack  
([?])

The cult has grown  
And now there is no turning back  
(No future!)

So watch our death god  
Shake her sweet demon ass

Fly into the demon's eye  
Our death god is rising  
Fly into the demon's eye  
Our death god is rising
