

Silver Bullet

Cancerslug

I Should have known right from the start.
You'd put a silver bullet straight through my heart.
But tonight the moon is full.
And I'll be coming for you.

Standing on the dead remains.
Living in a primal state.
But tonight the moon is full.
And I'll be coming for you.

I Should have known right from the start.
You'd put a silver bullet straight through my heart.
But tonight the moon is full.
And I'll be coming for you.
