

# There Is No End

Cancerslug

To all you devils, and rebel angels  
I can take you down to where the judgement is over  
To all you idiots, trapped in oblivion  
I can take you down to where the judgement is over

There is no end  
No burning end  
There is no end I have seen

To all you cattle, waiting for slaughter

I can take you down to where your heads have been severed  
To all the hopeless, trapped in your weakness  
I can't take you down to where the judgement is over

There is no end  
No burning end  
There is no end I have seen
