

## Women and Dope

Cancerslug

waking up in your own blood is an empty sorrow  
every night i hear them give it up, until tomorrow  
leave me alone  
no f\*\*king give it to me  
its just the women and dope that are driving me to my  
grave  
and there are alot more of them both that im going to  
do today  
waking up on the bathroom floor it makes me wonder  
all of my dollars are still rolled up with bloody  
corners  
leave me alone  
no f\*\*king give it to me  
its just the women and dope that are driving me to my  
grave  
and there are alot more of them both that im going to  
do today  
waking up with a headache and shakes  
my skulls like thunder  
i dont know who the f\*\*k this is im lying under  
leave me alone  
no f\*\*king give it to me  
its just the women and dope that are driving me to my  
grave  
and there are alot more of them both that im going to  
do today  
you say its an end and that its killing me  
but ive got news for you all  
you are going to die just the same  
and i will have lived much more than you before i find  
my grave  
im going to die  
but so are you  
im going to die  
we all do  
im going to die  
but so are you  
we all die  
so f\*\*k you
