

God's Gonna Use Me

Candi Staton

Alright now

Listen

I don't care what you might say
God's gonna use me anyway
I don't care what you might say
God's gonna use me anyway

You can talk about me as much as you please
But God still got His arms wrapped around me
You better judge yourself before you judge me
Because I know for a fact, He hears my plea

I don't care what you might say
God's gonna use me anyway
I don't care what you might say
God's gonna use me anyway

God choose me to be who I am
And you can't do nothing to turn me around
'Cause you don't know like He does
I take my orders from above
So, stick to your call and leave mine alone
One day soon we'll all be gone

I don't care what you might say
God's gonna use me anyway
I don't care what you might say
God's gonna use me anyway

He's gonna use me
My, my, my
Yes. He is
He's gonna use me

I don't care what you might say
God's gonna use me anyway
I don't care what you might say
God's gonna use me anyway

I don't care what you might say
God's gonna use me anyway
You can agree or disagree
One way or the other
Don't matter
'Cause I know God got me covered

I don't care what you might say
God's gonna use me anyway
I don't care what you might say
God's gonna use me anyway

He's gonna use me
Yes. He is

God's gonna use me anyway

I'm gonna let him use me
I'm wanna let him use me

God's gonna use me anyway

God's gonna use me anyway

Send me, I'll go

God's gonna use me anyway

Send me, I'll go

God's gonna use me anyway

Lord, have mercy

God's gonna use me anyway

My, my

I don't care

God's gonna use me

He's gonna use me
