

I Know

Candi Staton

I know
You gonna want me
But when you want me
It might be a different story

I know
You gonna want me
And when you want me
It might be a different story

When you get right down to it
O-o-oh baby
O-o-oh baby
You tore my heart apart
Right from the start
You made it
You made it

I know (I know, I know, I know)
I know (I know, I know)
I know
You gonna need me
And when you need me
It might be a different story

I know
You gonna need me
And when you need me
It might be a different story

When I'm hanging all alone
O-o-oh baby
O-o-oh baby
In trouble lives
I come watch ya'll
Everytime, Everytime

I know
Uhu Uhu
I know
Yeah
I know
Know, na na na
I know

I know
You gonna love me
But when I love you
I might not make it satisfying

I know
You gonna wanna hold me
But I might not let you hold me
Nobody's gonna control me

I know
You gonna want me

And when you want me
It might be a different story

I know
You gonna need me
You gonna need me
But you know what?

Ooh

I might be gone, gone, gone, gone
I might be gone, gone, gone, gone
I might be gone, gone (gone, gone)

Yes I will

I might be gone baby, gone, gone, gone

Bye bye baby

Gone, gone, gone

I might be gone, gone, gone, gone, gone

Yeah

Yeah

I might be gone, gone, gone, gone

I might be gone, gone, gone, gone

I might be gone
