

In the Still of the Night

Candi Staton

In the still of the night
In the still of the night
In the still of the night
When I make you mine
In the still of the night
Your love is right on time

In the still, oo-oooh
In the still

In the still of the night, mmm-hmm
In the still of the night

That's when you whisper sweet n' low
In the still of the night
I never wanna let you go
In the still of the night
In the still of the night

In the still, oo-oooh
In the still

In the still of the night

In the still of the night
When everything is right
I give in without a fight (oo-oh, oo-oh, oo-oooh)
Before the break of day
When I get you coming my way
When everything is right
What can I say

In the still of the night
In the still of the night

Ooh-oooh-oooh
When I get you next to me
In the still of the night
Ooh it's your ecstasy, uh huh

In the still of the night
In the still of the night

Just before the sunrise
It's when I realize
My power as a woman to satisfy my man
So good
It's when I'm understood
After midnight, the time, the time is right

In the still of the night (Ooh)
In the still of the night (Ooh-oooh)
In the still
In the still
In the still of the night

In the still

Oh-oh, in the still
In the still of the night
Just before the break of day (just before, just before, just before)
Just before the break of day
Ooh, just before the break of day (just before, just before, just before)
I get you coming my way (coming my way)
Ooh-oo

If there's a better a time
I don't know it
If you see another way, baby
You've got to show me
Well, in the still of the night, mmm-mmm
