

# So Blue

Candi Staton

So blue  
So blue without you  
I'm so blue  
So blue without you

I cry every night  
Longing to see you  
But it's not even possible  
'Cause you're gone and you're gone for good  
I'll never see you  
I'll never see you again

I'm so blue (so blue)  
So blue (so blue with) without you  
I'm so blue (so blue)  
I'm so blue (so blue with) without you

I hold (I hold)  
My pillow tight (my pillow tight)  
And let my imagination just run away  
Thinking of (thinking of)  
Just how it would be (just how it would be)  
If you were right here (beside me) beside me

Darling, baby, baby  
I've been needing you, oh, yes, I have  
Words can't describe  
The lonely feeling that's come over me

So blue (so blue)  
I'm so blue (so blue with) without you  
I'm so blue (so blue)  
I'm so blue (so blue with) without you

May god (may god)  
Bless the day (bless the day) I ever met you  
And I hope it will not go unnoticed  
How my heart (how my heart)  
My heart just throbs (just throbs)  
For just one precious moment  
Just one more precious moment with you

Darling, darling, darling  
Where is the day  
That you said you'd never leave me  
Who, who in the world would ever know  
What you do to relieve me?

(Oh, oh, oh, oh)

I'm so blue (so blue)  
I'm so blue (so blue with) without you  
I didn't know I could feel this way, babe  
But I'm so blue (so blue)  
I never thought that I could miss you like this  
(So blue with) without you  
Life has no more meaning for me, honey

You see, I'm so blue
