

Wake Up Everybody

Candi Staton

Everybody, everybody

I want you to listen to me for a little bit right here

I wanted you to read the newspapers this morning

Or did you see the evening news

As you were having dinner with your families last night?

Well, if you did then you must know that

This world is now in a whole lot of trouble

But I don't want you to get discouraged by that, no

Because I believe that there's a solution to all of this

Deep down within my soul

All we have to do is put our heads and hearts together

You gotta wake up everybody and no more sleeping in bed

And no more backward thinking, it's time for thinking, ahead

The world's changed so very much from what it used to be

There's so much hatred, war and poverty, oh yeah

Wake up all you teachers, you better teach a new way

Maybe then they'll listen to what you have to say

Because they are the ones

Who's coming up and the world is in their hands

When you teach the children

You better teach them the very best you can

The world won't get no better

If you just let it be, no no

The world won't get no better

You gotta change again, you and me

Wake up all you doctors, make the old people well

Because they're the ones who suffer a lot and catch all the hell

They don't hassle very long before their judgment day

Won't you make them happy before they pass away?

Wake up all you builders, it's time to build a new land

I know we can do it if we all lend a hand

Only thing we have to do is put it in our minds

And surely things will work out, they do it every time

The world won't get no better, oh no

If we just let it be

I said the world no no no

We gotta change it, you will and me

(Change)

I want you to sing along with me

(Change)

Come on

(Change, change, change, change)

Hey, hey, hey

(Change, change, change, change)

That's all you gotta do

(Change, change, change, change)
Everybody
(Change, change, change, change)

No more sleeping in bed, come on
(Come on wake up)
We gotta change the world
Change the world, change the world

We gotta teach the children
We gotta teach them well

(We gotta change it, dear)
Yeah we do
(We gotta change it, dear)
'Cause the world won't get no better

(Till we change)
Oh yeah
(Till we change)
Come on now

Change, change, change
Change, change, change
Change, change, change
