

That I Would

Candice Alley

You turn around
I see so many things come
Crashing you down
Your time is up so let me
Go back to the place I need now
Nothing more I'm asking you now

Cause don't you know when I hear your name
And every time when I speak your name
Anything you know that I could
Do for you, you know that I would

You fall without
So won't catch me when your
Hands touch the ground
I know I'm aching when I
Go back to the place I need now
Nothing more I'm asking you how

Cause don't you know when I hear your name
And every time when I speak your name
Anything you know that I could
Do for you, you know that I would

You'll see something's keeping me awake
You're the only one you start to break
They'll be nothing left for me to take
And so there you again

Cause don't you know when I hear your name
And every time when I speak your name
Anything you know that I could
Do for you, you know that I would
