

# Kiss Me

Candice Glover

It's been so long  
Since I've been held that way  
Thanks for reminding me baby  
On a good love feels  
Hands so strong  
Your lips so soft  
I wish someone would've warned me baby  
About how good it is

Never in a million, billion, trillion  
Years did I ever think I'll need someone  
Makes me feel the way that you do  
Cause when you put your hands on me boy, you heal me baby  
Believe me baby  
You got the magic touch

When you kiss me like you miss me baby  
Touch me like you love me baby  
Hold me like you own me baby  
Kiss me baby, touch me baby  
When you kiss me like you miss me baby  
Touch me like you love me baby  
Hold me like you own me baby  
Kiss me baby, touch me...

It's been so long  
Since I've been held that way  
Thanks for reminding me baby  
On a good love feels  
Hands so strong  
Your lips so soft  
I wish someone would've warned me baby  
About how good it is

Never in a million, billion, trillion  
Years did I ever think I'll need someone  
Makes me feel the way that you do  
And if people knew they just won't believe me baby  
How you feel me baby  
You got the magic touch

When you kiss me like you miss me baby  
Touch me like you love me baby  
Hold me like you own me baby  
Kiss me baby, touch me baby  
When you kiss me like you miss me baby  
Touch me like you love me baby  
Hold me like you own me baby  
Kiss me baby, touch me...

Don't ever let me go  
Baby hold me close  
Put your lips on mine  
Cause baby I belong to you for the rest of my life

When you kiss me like you miss me baby  
Touch me like you love me baby

Hold me like you own me baby  
Kiss me baby, touch me baby  
When you kiss me like you miss me baby  
Touch me like you love me baby  
Hold me like you own me baby  
Kiss me baby, touch me

When you kiss me like you miss me baby  
Touch me like you love me baby  
Hold me like you own me baby  
Kiss me baby, touch me baby  
When you kiss me like you miss me baby  
Touch me like you love me baby  
Hold me like you own me baby  
Kiss me baby, touch me...
