

## 10,000 Horses

Candlebox

Feels like the same today  
10,000 horses drag me down  
Seems like the same you say  
10,000 voices crying out  
You put on yourself, you'll see  
there's nothing left at all  
10,000 fingers dragging me down down down  
Never want to slow down  
I keep rollin' on  
Never want to slow down  
What I feel and what I know  
It's all about to change  
Seems like the same your ways of moving on  
10,000 lies, you're washing your hands of everything else  
So put on yourself you'll see  
There's nothing left at all  
10,000 staires they're bringing me down down down  
Never want to slow down  
I keep rollin' on  
Never want to slow down  
What I feel and what I know  
Oh it feels like the strain  
That everybody's giving to me  
Won't let my hands get tied  
I'm gonna ride it all out  
Never gonna slow down this time  
It's all about to change  
Change from the past for knowledge tomorrow  
Carries me on my way  
I feel you pressing  
These words left unspoken  
Change for the sake, change for the sake of change  
Seems like the same you say  
10,000 cracks you're walking on  
Fells like the same to say  
10,000 voices calling on  
You put on yourself  
You'll see there's nothing left at all  
But 10,000 horses bringing me down down down  
Never want to slow down  
I keep rollin' on  
Never want to slow down  
What I feel and what I know  
Oh it feels like the strain  
That everybody's giving to me  
Won't let my hands get tied  
I'm gonna ride it all out  
Never gonna slow down this time  
It's all about to change
