

## Alive at Last

Candlebox

I'm slowly floating through the clouds  
Receiving all your messages  
Nothing prepared me for the sound  
It's deafening  
I can feel your gravity letting go  
Positioning my body for the journey home

Can you see the lights I'm swimming in  
Lost amongst the stars and all the lies I'm spinning  
So I'll drift amongst these clouds  
I'll find my own way  
Alive at last, alive at last  
I'm never coming home

I'm slowly sifting through the clouds  
Receiving all your medicines  
I am escaping from the ground  
The sound is deafening  
I can feel your gravity letting go  
Positioning my body for the journey home

Can you see the lights I'm swimming in  
Lost amongst the stars and all the lies I'm spinning  
So I'll drift amongst these clouds  
I'll find my own way  
Alive at last, alive at last  
I'm never coming home  
I'm never coming home  
I'm never coming home  
I'm never coming home

Can you see the lights I'm swimming in  
Lost amongst the stars and all the lies I'm spinning  
So I'll drift amongst these clouds  
I'll find my own way  
Alive at last, alive at last

Can you see the lights I'm swimming in  
Lost amongst the stars and all the lies I'm spinning  
So I'll drift amongst these clouds  
I'll find my own way  
Alive at last, alive at last  
I'm never coming home  
I'm never coming home  
I'm never coming home  
I'm never coming home  
I'm never coming home  
I'm never coming home  
I'm never coming home  
I'm never coming home  
No I'm never coming home.
