

Cellphone Jesus

Candlebox

I got a restless heart, got a restless mind
Got a real late start, but we're right on time
If ya got the time
Kinda hurtin', got a burden, pretty certain
Were just the blind ones leading the blind
Yeah we're leading the blind

Pick up your cell phone Jesus
You got a world full of need ya's
Tick-tock, tick-tock, rewind
Everybody hanging on the line
Pick up your cellphone Jesus
You got a world full of need ya's
If you don't think we're trying, it's alright
If you don't think we're dying, it ain't right

Does your TV got, got rabbit ears?
Tears fall like rain, or those your fears?
Falling outside
My serotonin's been broken
My hope could fill up an ocean
So what I'm askin' myself, is it water or wine?

Pick up your cell phone Jesus
You got a world full of need ya's
Tick-tock, tick-tock, rewind
Everybody hanging on the line
Pick up your cellphone Jesus
You got a world full of need ya's
If you don't think we're trying, it's alright
If you don't think we're dying, it ain't right

It's alright

Got a restless heart, got a restless mind
Got a real late start, but we're right on time
If ya got the time

Pick up your cell phone Jesus
You got a world full of need ya's
Tick-tock, tick-tock, rewind
Everybody hanging on the line
Pick up your cellphone Jesus
You got a world full of need ya's

If you don't think we're trying, it's alright
If you don't think we're dying, it ain't right
If you don't think we're trying, it's alright
If you don't think we're dying, it ain't right

Hello?
