

# Don't Count Me Out

Candlebox

So precious to witness the coming feat  
To each, I present these games (Don't turn it down)  
Who breaks out?  
Who feels cold?  
Who's free now?  
Don't count me out

You can't keep me down  
Complete me, repeat me, positioning  
Don't count me out

Correction, you've missed us, we're coming clean  
Inspiration's our greatest goal (Don't block me out)  
Paid your dues, yeah  
Paid, but used, yeah  
Dressed in blues, yeah  
Don't count me out

You can't keep me down  
Complete me, repeat me, conditioning  
Don't count me out, no

Don't count me out, no

Ah, can we see the beauty without being told?  
Can we dance and sing, and just let go?  
Don't count me out

So helpless, I witness the cunning hate  
We reap, yes, we reap what we've sown (Don't let it out)  
Who breaks out?  
Who feels cold?  
Who's free now?  
Don't count me out

You can't keep me down  
Complete me, repeat me, conditioning  
Don't count me out, no  
Don't count me out, no

Can we see the beauty without being told?  
Can we dance and sing, and just let go?  
Don't count me out, no

Don't count me out, no  
Don't count me out

Can we see the beauty without being told?  
Can we dance and sing, and just let go?  
Don't count me out  
Don't count

Can we see the beauty without being told?  
Can we dance and sing, and just let go?  
Don't count me out, no  
Don't count me out, no  
Don't count me out, no

Don't count me out, no
