

I Should Be Happy

Candlebox

I should be happy
Not underwhelmed by being overwhelmed here
I should be happy
Not scared or frightened by a lack of fear
And I should be something
Instead of knowing nothing bout every day
And I should be thinking
But I'm overly aware that I ain't awake

A thousand words of nothing
Saying something good for no one
Going nowhere down the middle of the road
Spending like it's money
Going broke because it's funny
I'm laughing at me, I should be actually, I should be

And I should be happy
This ship is sinking, sinking all the way to the top
And I should be happy
I'm lazy, giving everything I've got
And I should be drinking
Drinking happy thoughts like all is lost boo hoo
I should be happy
Nice to meet you, so ready to meet me too

A thousand words of nothing
Saying something good for no one
Going nowhere down the middle of the road
Spending like it's money
Going broke because it's funny
I'm laughing at me, I should be actually, I should be happy

A thousand words of nothing
Saying something good for no one
Going nowhere down the middle of the road
Spending like it's money
Going broke because it's funny
I'm laughing at me, I should be actually, I should be happy
