

Let Me Down Easy

Candlebox

I ain't easy
It's fucking hard in here
My mind keeps thinking, babe
That I'm seeing clear
Can you taste the liquor on my lips?
Smoke lingers through my fingertips
I get up, get down, I don't fight no more
Just flipping through the pages of my life

Sooner or later gonna catch me son, yea
Sooner or later gonna catch me son

I hope you let me down easy
I hope you let me down easy
I hope you let me down easy
I hope you let me down
Time flies they say I chose, your right
I chose to stray hope you let me down easy

I ain't lyin'
Hand to god the truth
My heads a spinnin' in circles, babe
I think I've come unglued
I can taste the liquor on your lips
Got double vision from your kiss
I get up, get down, I don't fight no more
Can't find the missing pages from my life

Sooner or later gonna catch me son, yea
Sooner or later gonna catch me son

I hope you let me down easy
I hope you let me down easy
I hope you let me down easy
I hope you let me down
Time flies they say, I chose, your right
I chose to stray hope you let me down

I wanna make it, I wanna make it, I wanna make it don't you let me down, no
no
I wanna make it, I wanna make it, I wanna make it don't you let me down, no
no

Sooner or later gonna catch me son
Sooner or later gonna catch me son
Sooner or later gonna catch me son
Sooner or later gonna catch me son

I hope you let me down easy
I hope you let me down easy
I hope you let me down easy
I hope you let me down
Time flies they say, I chose, your right
I chose to stray, I hope your right
Time flies they say, I chose, your right
Time flies they say I hope you let me down easy
