

Only Because of You

Candlebox

Somewhere
In a house down the street from your own
She was dying inside
And you'd die every night from their storms

Maybe
Did you bury it deep and move on
Were you hiding from fear?
Did she hide the same things? All the wrongs?
(Did she hide the same things)

Oh oh...
We made it through
We know who we are
Only because of you
Oh oh...
We made it through
And we know love
Only because of you

Downtown
On a stage where you thought you belonged
Were you saving your life
Were you saving his too all along

Skyline
Could you feel the escape or the fall?
Were you drowning alive
In spite of the padded cell walls
(In spite of cell walls)

Oh oh...
We made it through
We know who we are
Only because of you
Oh oh...
We made it through
Oh... and we know love
Only because of you... ohh

There were times when the lights were out
I'd step towards the door and hear you screaming out
Time spent alone wasn't right for you
Oh, how many times you must've wanted to run
Pills on the floor, if you'd had a gun?
Time spent alone wasn't right for you

Oh oh...
We made it through
We know who we are
Only because of you
Oh oh...
We made it through
And we know love
Only because of you
(Only because of you)

Only because of you

Only because of you
