

# She Come Over Me

Candlebox

I got all I want  
I got all I need  
she gave everything  
she come over me

I will be taking time hey  
await her answering  
and I got all I have  
she come over me  
she come over me

My heart is racing  
her hands on my hips we collide  
my hands discover her breath heaves with mine so alive  
oh I've waited too long for this night  
put your hands on me  
hearts are racing desire her, I love  
she come over me

and I got everything  
and she got all I need

we gonna take our time oh  
she come over me  
she come over me

My heart is racing  
her hands on my hips we collide  
my hands discover her breath heaves with mine so alive  
oh I've waited too long for this night  
put your hands on me  
hearts are racing desire her, I love  
she come over me  
she come over me yeah

Oh lover you see that  
there's something I need only you  
oh lover you see that  
there's something in me you can move  
oh baby you're loving me  
baby you're loving me  
baby you're loving me  
baby you're loving me

oh lover you're all that I need, all I need  
oh lover you're all that I need, all I need  
she come over me

My heart is racing  
her hands on my hips we collide  
my hands discover her breath heaves with mine so alive  
oh I've waited too long for this night  
put your hands on me  
hearts are racing desire her, I love  
she come over me  
she come over me yeah  
she come over, she come over me yeah

she come over, she come over me yeah  
she come over, she come over me
