

Supernova

Candlebox

Momma, what you runnin' from
Momma, why'd you go?
Left alone remembering
Momma, come back home
Momma never knew what hit me
I'm still stumbling from the night
Momma, oh it never felt so true
I'm still trembling from the height

Shake my galaxy
Supernova me

Yeah she got me in a coma
Yeah I know I can't control her
Momma know you got me faded
Got me goin' supernova

Momma why'm I shaking still
Momma what you done
Got this turning in my head
Momma, yeah, momma set on stun

Shake my galaxy
Supernova me

Yeah she got me in a coma
Yeah I know I can't control her
Momma know you got me faded
Got me goin' supernova
Loss of air, loss of time
Lost all contact with my mind
Never wanna come back down
Momma left me spinnin' around and around and around

Momma got me reeling
Never could deny
Momma come and set me free one last time

Yeah she got me in a coma
Yeah I know I can't control her
Momma know you got me faded
Got me goin' supernova
