

## Trip

## Candlebox

You tripped me up  
I lost my breath  
I'd been this close, Lord only knows, but I'd never missed a step  
You turned it up  
This fire burning in me  
I can see that there's love in your eyes, and baby, I can't speak  
I can see that there's love in your eyes, and baby, I can't speak

I believe in singing 'bout you and I  
I believe in us singin' our song, and dancing by moonlight  
I believe there's something 'bout you and I  
I believe we love singin' that song, and we're dancing on through the night

You tripped me up  
Baby I never fall  
I missed that step, I lost my breath, and kept going down  
You turned it up  
This fire burnin' inside  
Oh it's all that I ever want, baby, and it ain't never gonna die  
Oh it's all that I ever want, baby, and it ain't never gonna die

I believe they're singin' 'bout you and I  
I believe in us singin' our song, we're dancin' by moonlight  
I believe there's something 'bout you and I  
I believe we love singin' this song, and dancin' on through the night

Your love, the drug, I need to score, I get so high on you  
I caught the buzz when I hit the floor, it's just the way you do  
And I know if I leave I won't get what I need, there's just so much of you  
If I take everything like I want, what's that leave? It's just the way I do  
It's just the way I do

You tripped me up  
You tripped me up  
You tripped me up  
You tripped me up  
You tripped me up  
You tripped me up

You tripped me up
