

# What Do You Need

Candlebox

So tell me now what do you need  
Get on up off of your knees  
These games stop playing the tease  
Well you're now just cutting your teeth  
I'm rippin' in, watching 'em bleed

So tell me now what do you need  
Spreading this like a disease  
Shut your mouth ain't gotta preach  
Left it all on the table so leave

And if everybody's leaving, I'll go it alone

I've been waiting  
And I'm still waiting  
So tell me now what do you need

Didn't think that I'd walk away  
You didn't think I'd hear what you say  
My whole life all night and day  
You kept taking, what do you need

Here I am now talking to you  
Here I am now nothing to prove  
There I went, I'm done, I'm through  
So tell me now what do you need

And if everybody's leaving, I'll go it alone

I've been waiting  
And I'm still waiting  
I've been waiting  
And I'm still waiting

I'll go it alone

I've been waiting (Tell me now what do you)  
And I'm still waiting (I'll just go it alone)  
I'm still waiting (I'll just go it alone)  
And I'm still waiting

So tell me now what do you need  
So tell me now what do you need  
So tell me now, tell me now, what do you need

I've been waiting (Okay, okay, come on, come on)  
I'm still waiting (So tell me now, tell me now)  
I've been waiting (So tell me now, oh)  
I'm still waiting (Oh, I'm still waiting)  
So tell me now what do you need
