

## Destroyer

Candlemass

Land of thousand needles  
Land of cripple and lame  
So much self indulgence  
And so much shit in my brain

The people under the staircase  
And all the vomit in hell  
Parading here on my doorstep  
I just want to get well

You walk amongst us, a majesty of wrath  
Chaos and cleansing, one man world war  
A mind on kill mode, expressionless face  
Brain like a child, fuck the human race

There in the spotlight you grin  
And the slaughter of delight begins  
Oceans of limelight you drink  
And society fall in a blink

You are the destroyer of the world

Destroy the destroyer  
I'm plagued with disease  
And soon we'll all be  
Praying on our knees

I am injected, with venom and your piss  
My life is hatred, I spiral down the abyss  
A mind on kill mode, expressionless face  
Brain like a child, Fuck the human race

And there in the spotlight I grin  
Let the slaughter of delight begin  
Oceans and limelight I drink  
And my dreamworld fall in a blink

I am the destroyer of the worl
