Devil Voodoo

Candlemass

When everything's the same, and I'm lost and unsane
I just sit here and wait, for devil voodoo
Tired and so bored, like many times before
Longing for some soul - some devil voodoo

Ancient dawn, I need your love, it's what I'm asking for
Come to me and give your light, open up the door
Freeze the time, blind the mind, down to the core
Save my vessel, like you did so many years ago

Dancing with the devil - tango, room to room
Transmission from the tombs
Can I really do, what you want me to?
My charming little friend

From beyond, an inner storm, a swarm to the heart
The evening sun inside my bones, a welcome from the dark
Savage light, I weep and cry - your whisper is so bright
Now take me to the seventh gate, to the garden of delight

Dancing with the devil - tango, room to room
Transmission from the tombs
Can I really do, what you want me to?
My charming little friend

Step into the world of holy trance

Can't you feel it's coming, oh it's nothing new
The devil voodoo, it's here for you
In the midnight hour, touch of deja vú
The devil voodoo - it is true, so true
Greetings from the dark, daggers to the heart
It's devil voodoo, taking you

When everything's the same, and I'm lost and unsane
Longing for some soul - some devil voodoo

Ancient dawn, I need your love, it's what I'm asking for
Come to me and give your light, open up the door
Freeze the time... blind the mind, down to the core
Save my vessel, like you did so many years ago
