

Forever My Queen

Candlemass

Ran away with myself
And I think I ran a little too far
Your love is more than a tease
And I'm gonna give it all of my heart

Situation is all wrapped up
And no more need to be said, oh no

You live in my world gotta heed me
And I know that you can cause you need me
There ain't nothin' gonna stop us now
We're willing and we both know how

You're gonna be my queen
Cause a king always knows just what he means
Well, alright

The future looks only a sea
Of the troubled times ahead for you and me
And the desert oasis just sand
For the kingdom and all of my plans
On no
