

## Fade

Cane Hill

Is it illusion in your embrace  
The silence consumes us  
Is it delusion, I like the taste  
Let it entomb us

Fade, fade, yeah  
I wanna fade, fade  
Fade into you  
I wanna fade

Your eyes are reflecting  
The sadness and gloom  
Pain is your beauty  
Enveloped in doom  
To share in your suffer  
Is all I can do  
I'll keep you from sinking  
Will you keep me too?

Fade, fade, yeah  
I wanna fade, fade  
Fade into you  
I wanna fade

The curse and the burden  
Deafening pain  
The haunting that follows  
The shadow that waits

I'll share in the suffer

Fade, fade  
Fade, fade
