

Staring from across the way
Won't you let me come and play?
Stuck, on my mind tonight
I wanna have a look, let me inside
What's your bedroom like?
Is anyone home? I'll bring red wine

Won't you be my first time?
I wanna give you a piece of me
Now

I'm just the eye in the tree
I watch you cry while you sleep
Gemini, Gemini
My star in the sky

I'm just the eye in the tree
I watch you practice for me
Gemini, Gemini

Obsessed for days
I'll beat on the front door, beat on the back door
Locked window pains
Stuck for now but it won't stop me

Obsessed for days
I'll beat on the front door, beat on the back door
I'm here to stay

I'm just the eye in the tree
I watch you cry while you sleep
Gemini, Gemini
My star in the sky

I'm just the eye in the tree
I watch you practice for me
Gemini, Gemini
My star in the sky

Why did you say those things?
Could've been nice, you were cold as ice
Why is this happening?
It doesn't feel right, it doesn't feel right

Why did you say those things?
Could've been nice, you were cold as ice
Why is this happening?
It doesn't feel right, it doesn't feel right

I'm not a freak
I'm not a freak
I'm not a freak
I'm not a freak
I'm not... a freak

I'm just the eye in the tree
I watch you cry while you sleep

Gemini, Gemini
My star in the sky

I'm just the eye in the tree
I watch you practice for me
Gemini, Gemini
My star in the sky
Gemini, Gemini
My star in the sky
Gemini, Gemini
My star in the sky
