

# Hateful

Cane Hill

I feel so fucking hateful  
Pissing on the right here right now  
I feel so fucking hateful  
Pissing on the right here right now

I feel so fucking hateful  
Pissing on the right here right now  
I feel so fucking hateful  
Pissing on the right here right now

Every thought I've ever had  
Killing me, killing me  
Everyone I've ever known  
Following, following  
Every memory inside  
Haunting me, haunting me

Every thought I've ever had  
Killing me, killing me  
Everyone I've ever known  
Following, following  
Every memory inside  
Haunting me, haunting me

I feel so fucking hostile  
Feeding on the what's here what's now  
I feel so fucking hostile  
Feeding on the what's here what's now  
I feel so fucking hostile  
It's the way I go to waste  
With my fingers in my brain  
But now I don't taste the same

Every thought I've ever had  
Killing me, killing me  
Everyone I've ever known  
Following, following  
Every memory inside  
Haunting me, haunting me

Every thought I've ever had  
Killing me, killing me  
Everyone I've ever known  
Following, following  
Every memory inside  
Haunting me, haunting me  
I feel so fucking hateful

Every thought I've ever had  
Killing me, killing me  
Everyone I've ever known  
Following, following  
Every memory inside  
Haunting me, haunting me  
(It's haunting me)

Every thought I've ever had

Killing me, killing me  
Everyone I've ever known  
Following, following  
Every memory inside  
Haunting me, haunting me  
I feel so fucking hateful

I feel so fucking hateful
