

This is Genabis, Remember this

In the beginning I discovered wordplay  
I experimented with some syllables from the first to the third day  
On the fourth I searched for the words to say  
How to compress complex verbiage in the least amount of space  
I was perfect at it and mastered the tactic's  
On the fifth day I decided I would combine it with mathematics  
On the sixth day I became a fanatic and I couldn't kick the habit  
I would just look in the mirror and practice  
On the seventh cycle, I had to take the day off  
I was exhausted I guessed my work will never pay off  
But if it happened it to him, it could happen to me  
And if it happened to me, it was destined to be

Yo, Genabis, Exobus, Levitibus

There ain't a mic on this planet I'm restricted to touch  
I read the cosmo's but God wrote predicted as much  
The inhabitants lack faith but resistance is tough  
(2x)

They backslide back to church and call a minister's bluff  
They rather remain unenlightened then listen to Bus  
I blew the fuck up, even though it was short and abrupt  
I was the first rapper to ever to close orbit the sun  
One small step for man, one huge step for mankind  
...I am the red giant of rhymes  
Solar deflectors, incinerate you whole in a second  
Flow is untested those that I've threatened fold under pressure  
At 120 Beta cycles, high volts ignite your eyeballs  
Until you see the fire in front of you  
Optic cone rods, melt one at a time till you realize you in hell  
Rip the Jacker's not done with you  
I terrorize the rap community with impunity  
Blow you to pieces and move elusively thru the debris  
What my enemies want to do to me is old news to me  
Those that pursue to me will never get thru to me

Yo, Genabis, Exobus, Levitibus

There ain't a mic on this planet I'm restricted to touch  
I read the cosmo's but God wrote predicted as much  
The inhabitants lack faith but resistance is tough

First rapper to speak over beats dogmatically  
Mixed with Elizabethian drama and tragedy  
My motto is to dress casually and live lavishly  
Look at the Victorian tapestry in back of me  
Notice the post renaissance pictures I drew  
Hand sketched drawings of the deserts in Nazca Peru  
The followable audio propogates the possible truth  
For proof I'm the illest so the choice is not unto you  
See the standard ideological definition of a rap model  
Its Canibus scholarly periodicals  
The article is substantially impressive, more then a message  
A working thesis from several different perspectives  
The Rosetta stone of sentences  
For rap music's tentative

Enter apprentices  
This is Genabis
