Canibus

I make your bitch crew shit stools; I put a pistol  
in your mouth and pull, then I feed you to the pitbulls  
Don't even talk about guns; the only "nine" you got  
is a five dollar bill and four ones  
So I don't give a fuck what none of y'all niggaz say  
Cause anything that can't penetrate ricochets  
Rhymin with me on a record? You might as well have died  
and went to hell instead of heaven cause my rhyme weapon  
is like a medieval torture method -- your four limbs  
tied to four horses all pulling in different directions  
In this profession I get busy without a question  
Seein me is like seein a vampire's reflection  
Fast or slow flows connect like electrodes  
I make cassette tape decks blow when I'm in wreck-mode  
Explode leavin areas abandoned  
with more radiation behind than spots UFO's landed in

Is that all soldier?  
Yes, sir!  
Is there anything you need?  
No, sir!  
Report back to me before debriefing. At ease!

Are you a Navy Seal?  
Yes, sir!  
Then say it like you mean it!  
Tell them who Free from the Navy Seal Team is!

Free be the one rockin shit, special operatives  
Specializin in weapon diagnostics  
My survival tactics be drastic, like Rambo  
I'm stranglin niggaz with my bow and arrow elastic  
Whoever said you couldn't be five feet and thoroughbred  
never witnessed the cerebal cortex in my head  
How many gigabytes does your hard drive hold?  
or does your hard drive fold once the signal hits the node?  
Beyond mission control the theory behind your thought  
Marie Antoinette, behead me, I still rock  
While you choke and suffocatin off your own testosterone  
I'm known for breakin levels down to the values unknown  
A specimen with extraterrestrial estrogen  
Kick your intestines in, sell your testicles to Mexicans  
I bring the force like a nutcracker  
Annihilate rhyme hackers, Navy Seal linebacker  
The last Oedipus remains, unclaimed  
So if you buck against Free you better tattoo your name  
on your teeth -- I disintegrate those that oppose  
Disintegrate hoes with they assholes in they nose  
I suppose you wanna run your mouth like a ??  
I put bitch niggaz to rest in the bitch bassinet

Is that all soldier?  
Yes, sir!  
Is there anything you need?  
No, sir!  
Report back to me before debriefing. At ease!

Are you a patriot?  
(Sir, yes sir!)  
Then say it like you mean it!  
Tell them who Canibus from the Navy Seal Team is!

I'm the meanest motherfucker on this whole Navy Seal team  
And I can kill anything if it bleeds or breathes  
Yo, callin all bitch-ass niggaz and bitch-ass bitches  
I got a Howitzer bigger than any four-fifth is  
Rappin is a raw business  
But as an individual I'm as different as anybody's fingerprint is  
If foreign is the norm I'm the antonym  
Put me in the same category you would put Marilyn Manson in  
Bugging like a satanic evangelist  
Jogging buttnaked down Sunset Boulevard in Los Angeles  
Every MC in your crew will get ruined or wounded  
You talk the bullshit, and be too scared to do shit  
I'm the type of nigga that'll prove it, produce shit  
Spent so much time in the studio I had to move in  
A soldier, who practices West Indian obia  
I can drink the poison from a king cobra  
Cause long after y'all are dead and gone  
I'll survive the nuclear holocaust like a roach  
Is that all soldier?  
Sir, yes sir!  
Is there anything you need?  
Sir, no sir!  
Report back to me before debriefing. At ease!
