

## Pull the Carb

### Cannabis Corpse

Fire, billows from the rib-cage  
My victims torso filling with smoke  
I am gripping the cadavers scalp

A violent jerk removes the head  
My lungs inhale the smoke from its neck  
My stoned expression, my face is covered  
in gore

I killed you inside your home  
Then I filled your corpse with Smoke  
I will decapitate you

To pull the carb  
Inhale the bong load of  
Weed through the neck stump  
My grotesque fantasy will be a reality  
Nothing can stop me 'til I get my fix  
I lust to pull the carb  
Everyday I need to find a new victim  
I'll never be satisfied  
until the smoke is inside  
The moment you die  
Nothing will ever get you any more high

My apartment is full of rotting cadavers  
Marijuana masks the disgusting stench  
My life is a horrific nightmare

Resin forms in the chest cavity  
Inside the lifeless body of the deceased  
The vital organs have been removed inside

It will never end  
Taking bong loads from your open neck hole

I killed you inside your home  
Then I filled your corpse with Smoke  
I will decapitate you

To pull the carb  
Inhale the bong load of  
Weed through the neck stump  
My grotesque fantasy will be a reality  
Nothing can stop me 'til I get my fix  
I lust to pull the carb  
Everyday I am out searching for victims  
I'll never be satisfied  
until the smoke is inside  
The moment you die  
Nothing will ever get you any more high
