

# Staring Through My Eyes That Are Red

Cannabis Corpse

Follow down into my lair  
Rotten smell, they smoke their weed there  
Her heady weed hits the air  
I awake, from my coffin I stare  
Shaking hands, their bowl has fallen  
To me this night, the pot has callen  
I awake from death to take it  
Hand from the ground, now I claim and smoke it  
Smoke it  
Give to me, I wait and lie  
Graveyard slaughter, must get high  
Must get you dead  
Skull I split and scalp I peel  
Blazed as shit, can this be real  
Stoned as shit now  
Flesh I crave  
For my munchies its your brain I save  
My coffin waits, I throw you in  
Decomposing, still my session will begin  
You scream at me, I rip your throat  
Sprinkle PCP and smoke on that boat  
Soon it hits my brain, deep within  
For rigor mortis stiffness, it does the trick  
It does the trick  
Loosened up now, I tear you to shreds  
Staring at you madly through these eyes that are red  
Red  
Loosened up now, I tear you to shreds  
Staring at you madly through these eyes that are red  
Stoned as shit now  
Flesh I crave  
For my munchies its your brain I save  
Blazed as shit, can this be real  
Skull I split and scalp I peel  
Staring through my eyes that are red
